

Editor's Note: Effective with the December 2012 issue, JOURNAL AWWA will no longer produce a printed annual index. We encourage you to use our online search tools at awwa.org.

Arsenic

- Recent Research Every Utility Manager Needs to Know About
Vanessa Speight and Steve Via 103:1:48
- Field Pilot Evaluations of Iron Oxide-Based Arsenic Adsorption Media
Teresia Moller, Debanjali Bagchi, and Paul Sylvester 103:1:93

Asset Management

- Perspectives: A Call for Reliability Standards
Scott J. Rubin 103:1:22
- Money Matters: Expressway to the Future: GIS and Advanced Metering Infrastructure
Gregory M. Baird 103:1:34
- Money Matters: Navigating Service Level Expectations: Asset Management Planning
Gregory M. Baird 103:2:38
- Money Matters: Defining Public Asset Management for Municipal Water Utilities
Gregory M. Baird 103:5:30
- Sustainable Distribution System Asset Management: Risk Mitigation Through Control Point Management
Cliff Wilson 103:5:100
- Money Matters: Bridging the Gap Between Engineers and Finance
Gregory M. Baird 103:7:20
- Money Matters: Managing Assets: When Going With the Flow Doesn't Save Money
Gregory M. Baird 103:9:18
- Money Matters: Moving a Mountain With Comprehensive Asset Management Planning
Gregory M. Baird 103:11:24
- Security and Preparedness: Security and Asset Management: A Daily Double to Eliminate Jeopardy
John W. McLaughlin 103:11:28

Awards

- A.P. Black Research Award: Michael R. Schock Honored With 2011 A.P. Black Research Award 103:9:36

AWWA

- PREB Editors Bring Decades of Experience, Expertise to JOURNAL's Peer-Review Process
Mark W. LeChevallier 103:1:44
- Committee Connection: AWWA's Water Conservation Division
Eva Opitz 103:2:52
- Committee Report: Sustainability of Water Resources Depends on Implementing Our Knowledge on Climate Variability
AWWA Climate Change Committee 103:6:42
- Committee Report: Knowledge Management for Addressing Workforce Issues
AWWA Knowledge Management Subcommittee of the AWWA Workforce Strategies Committee 103:8:44
- State of the Industry Report 2011: Economic Stagnation Dampens Industry Outlook
Maripat Murphy 103:10:42

- TEC Project Report: Social Media and Online Collaboration Tools' Place and Purpose in Committee Work
AWWA Water Science & Research Division Information Management & Technology Research Committee 103:12:42

Business Issues

- Perspectives: A Call for Reliability Standards
Scott J. Rubin 103:1:22
- Current Issues: Public-private Partnerships Solve Groundwater Contamination Issues
Kevin S. Leung 103:1:26
- Optimizing Operational Reliability of the Cincinnati Contamination Warning System
Brian C. Pickard, Adam J. Haas, and Steven C. Allgeier 103:1:60
- Wastewater News: Partnering: Winning the Infrastructure Derby
Edward J. Basquill 103:1:105
- EcoLogic ... from The Nature Conservancy: Water Sustainability Risk Assessment, Part 1: Defining the Area of Influence and Sustainability Boundaries
Kari Vigerstol 103:1:107

Chloramination

- The Nitrification Index: A Unified Concept for Quantifying the Risk of Distribution System Nitrification
Gerald E. Speitel Jr., Ramakrishnan Kannappan, and Benjamin M. Bayer 103:1:69
- Technical Note: Using UV-Vis Spectrophotometry to Estimate Nitrite Plus Nitrate and Monochloramine
Windsor Sung 103:6:97

Chlorine

- Copper Pitting in Chlorinated, High-pH Potable Water
Emily Sarver, Kara Dodson, R. Paolo Scardina, Rebecca Lattyak-Slabaugh, Marc Edwards, and Caroline Nguyen 103:3:86

Coagulation

- Chloride-to-sulfate Mass Ratio: Practical Studies in Galvanic Corrosion of Lead Solder
Caroline K. Nguyen, Kendall R. Stone, and Marc A. Edwards 103:1:81
- Use of Barley Straw to Control Nuisance Freshwater Algae
Houman Rajabi Islami and Yousef Filizadeh 103:5:111
- Assessment of Hydraulic Flocculation Processes Using CFD
Yamuna S. Vadasarukkai, Graham A. Gagnon, D. Reid Campbell, and Sarah C. Clark 103:11:66

Committee Connection

- AWWA's Water Conservation Division
Eva Opitz 103:2:52

Index 2011 Peer Review Editorial Board

AWWA thanks the members of the Peer Review Editorial Board for their contributions to JOURNAL AWWA's peer review process throughout the year. Their efforts, alongside those of the reviewers, have been instrumental in improving the quality of the papers published in the JOURNAL.

The members of JOURNAL AWWA's 2011 Peer Review Editorial Board, along with their specialty categories and affiliations, are as follows:

Dulcy M. Abraham, Engineering & Construction
Professor of Civil Engineering, Purdue University,
W. Lafayette, Ind.

Robert M. Clark, Distribution Systems (Hydraulic Modeling)
Environmental Engineering and Public Health Consultant;
retired Director of the US Environmental Protection
Agency's Water Supply and Water Resources Division in the
Office of Research and Development's National Risk
Management Research Laboratory

Joseph A. Cotruvo, Toxicity & Health Effects
President, Joseph Cotruvo & Associates, Washington, D.C.

Francis A. DiGiano, Distribution Systems (Corrosion
& Water Quality)
Part-time Professor [retired 2007], Environmental Sciences and
Engineering, University of North Carolina, Chapel Hill, N.C.

Thomas E.T. Gillogly Water Treatment Processes II
(Nonconventional Processes—membranes, activated carbon,
ion exchange)
Project Manager/Associate, Carollo Engineers, Miami, Fla.

Richard W. Gullick, Watersheds & Water Resources
Chief of Water Quality, Passaic Valley Water Commission,
Little Falls Water Treatment Plant, Totowa, N.J.

Mark W. LeChevallier, Chair
Director, Innovation and Environmental Stewardship,
American Water, Voorhees, N.J.

Benito J. Mariñas, Water Treatment Processes III
Ivan Racheff Professor of Environmental Engineering,
Department of Civil and Environmental Engineering,
University of Illinois at Urbana-Champaign

Brian L. Ramaley, Utility Management & Operations
Director, Newport News Waterworks, Newport News, Va.

Theresa R. Slifko, Water Reuse & Reclamation
Associate Environmental Scientist, Los Angeles County
Sanitation District, Whittier, Calif.

John E. Tobiason, Water Treatment Processes I
(Conventional Processes—coagulation, flocculation,
clarification, filtration)
Professor of Civil and Environmental Engineering,
University of Massachusetts-Amherst, Amherst, Mass.

Howard S. Weinberg, Laboratory & Analytical Methods
Professor, Department of Environmental Sciences and
Engineering, University of North Carolina, Chapel Hill,
N.C.
